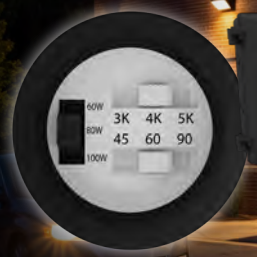
RAB

WL22

FIELD ADJ.

ADJUSTABLE OPTICS

contractorplus



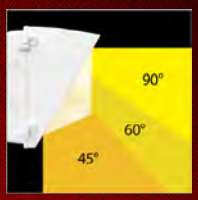
Three distributions, one switch.

The WL22 wall pack with adjustable throw.

Four levels of control.

WL22 puts complete control on four simple switches. Adjust your wattage, CCT, forward throw, and photocell, all with the flick of the wrist, so that you set your lighting to fit your site's needs. One fixture adapts to more applications, which means fewer SKUs to stock and the freedom to adjust when plans change.

Forward Throw



Control the light throw.

Wattage

WL22–L150
