

BEAM

High-output performance.
Track light simplicity.

The BEAM is built for retail environments.

RAB[®]

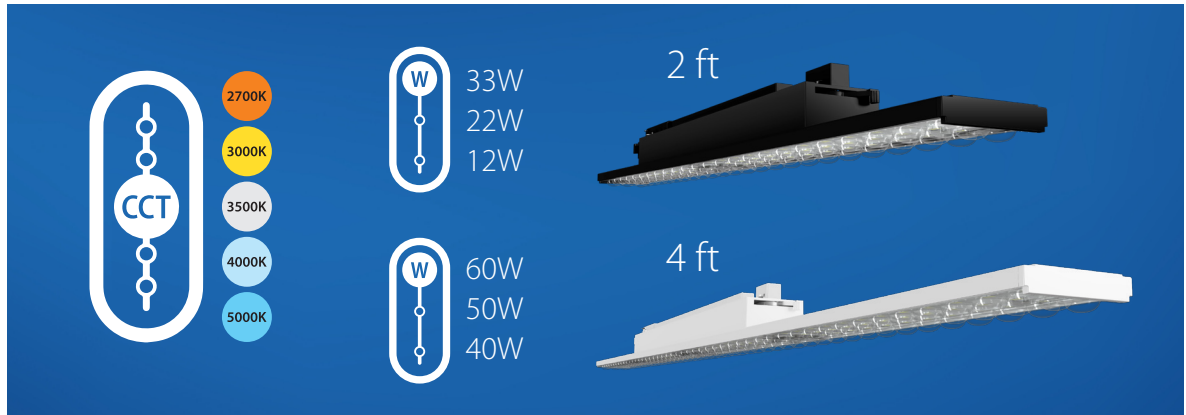

FEATURE PAGE

RAB's warranty is subject to all terms and conditions found at rablighting.com/warranty

A modular low bay, without the commitment.

Think of BEAM as a low bay you can reposition! It runs on standard single-circuit track in 2 ft and 4 ft sizes, making it easy to adapt the layout as the space evolves. And with three selectable wattages and five CCTs, your light output can adapt as well.

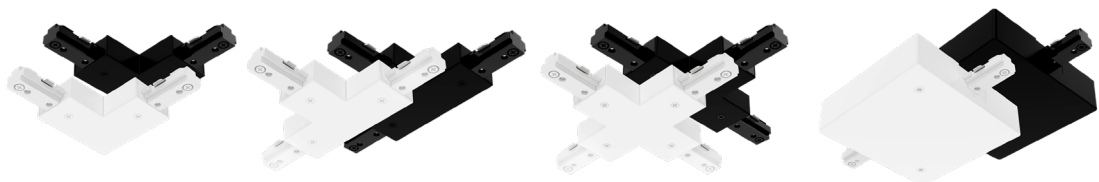

When color really counts.

90 CRI isn't a nice-to-have in their world, it's the baseline. Shoppers make split-second decisions based on how products look, and dull, washed-out light can turn a fresh display into a missed sale. BEAM's 90 CRI ensures produce looks vibrant and appetizing, meats look fresh, and merchandise pops off the shelf the way it's meant to.

Complete design solutions.

BEAM is fully compatible with our track system components, which include 3 track lengths in both colors, various joiner configurations, power feeds, and current limiters.

Ordering Matrix

Product Family	Size/Wattage	Mounting	Color Temperature	Optics	Finish	Driver
TKBEAM	2 2 ft (30/22/15W) 4 4 ft (60/50/40W)	Blank H-Track Mount	Blank 2700/3000/3500/4000/5000K	Blank 90°	Blank B White Black	Blank 120V, TRIAC Dimming
