## Maximized versatility

DISK34 downlights were designed to be a flexible lighting solution for both retrofit and new construction applications, installing into recessed cans if you've got 'em, or standard junction boxes if you don't! Models are offered in 4" and 6" with field-adjustable color temperature.

## Economy that performs

The frosted lens creates smooth, uniform light that eliminates hot spots, and 90+ CRI ensures accurate color rendering. All models are dimmable to 10% with most standard TRIAC dimmers (120V).

90+ CRI

Dimmable down to 10%

## Anywhere you want it.

All models are suitable for use in dry, damp and wet locations, making them perfect for both indoor and outdoor use.

## Optional mounting kit for recessed installations.

These surface mounts can be mounted to standard 4" junction boxes on either ceiling or wall. An optional mounting kit is available for 4" and 6" models that allows for installation into recessed housings\*

\*Accessories are sold separately

### Optional Mounting Kit

DSKFA4/PIR/ACC  
(for 4" models).

DSKFA6/PIR/ACC  
(for 6" models).

## Ordering Matrix
