GameOn

TUNABLE RGBW

Professional sports lighting made simple.

GameOn—Engineered to perform, priced to compete.

Innovation where it matters.

The 5000K GameOn model has a large, unified panel that delivers up to 67,000 lumens and can be ordered with a narrow spotlight distribution (3H x 4V) or a wider floodlight spread (5H x 5V). The innovative design includes small microshields that help block uplight and reduce light trespass.

5H x 5V Wider Floodlight Distribution

3H x 4V Narrow Spotlight Distribution

Microshields eliminate uplight.

Built tough.

GameOn is ideal for new construction and retrofit applications. Its rugged design is engineered to excel in demanding outdoor environments and an operating range from -40°F to 104°F ensures it performs through bitter cold and sweltering heat.

IK10 RATING

Installations & maintenance are a breeze.

GameOn comes with a remote driver box that gives installers and maintenance crews access to electrical components from ground level, dramatically reducing service time and costs.

Get smart.

The RGBW version features factory-installed Lightcloud Blue connectivity, giving you wireless control over both white light and dynamic color. Create stunning light shows, celebrate team victories, or set the perfect ambiance for any sporting event—all from your mobile device.
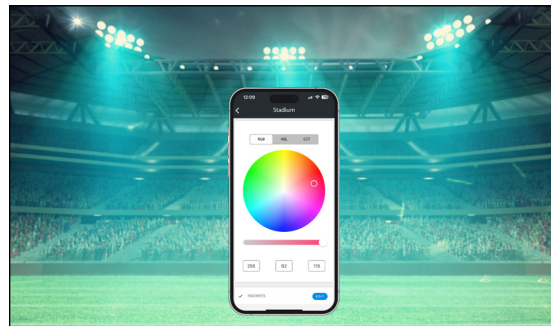

The power of Lightcloud.

Need advanced sports lighting control? GameOn is available with integrated Lightcloud control, providing sophisticated, remote management capabilities that include scheduling, energy monitoring, and system alerts.

Our aim is true.

The GameOn's intuitive design includes a worm gear that makes is a breeze to tilt the fixture and aim the light exactly where you want it.

Accessories.

Optional accessories include 100-foot cables for longer runs, a laser pointer kit for precise aiming, a square beam mounting bracket for square cross arms, and a slipfitter adaptor.
