GUS

Same affordability,
a whole lot more flexibility.
GUS® — all new and field-adjustable!

Set it in the field.

GUS now comes with field-selectable wattage and CCT so there are far less SKUs to stock and install— one fixture now does the work of 15!

Seamless sensing.

GUS is available with either a microwave sensor or a passive infrared sensor that's integrated into the endcap for a clean, unobtrusive look. Need smart sensing? Models with Lightcloud Blue sensors instantly connect to our wireless control system.

Ready for emergencies.

GUS is available with an integrated battery backup so you can meet life-safety code requirements without adding a separate emergency fixture to the layout.

Mounting accessories.

GUS is built for surface or junction box mounting, but a V-hook accessory is offered for chain or pendant mounting applications. A joiner bracket accessory is also available for side-entry or continuous-run mounting.
