

RAB®

FHID

Traditional aesthetics, modern technology.
Filament HID replacements with omnidirectional light.

Looks great both on and off.

Unlike conventional LED retrofits with their bulky heatsinks and visible electronics, these lamps maintain the classic silhouette of traditional HID bulbs while operating with far greater efficiency.

True omnidirectional light.

Designed to replace up to 500W MH, these filament lamps come in small and large forms, boast field adjustability, and are designed to match ANSI Standard lamp sizes: ED17, ED23.5, ED28, and ED37—all with true, 360° illumination.
