

Trimless downlights.

The most unobtrusive way to bring light into your space.

RAB

Seamless, contemporary design.

Trimless, recessed lighting eliminates the traditional flange found in downlights to create a seamless aesthetic commonly found in modern/contemporary design. By marrying lighting and architecture, your fixtures become an integral part of the interior's composition, delivering unobtrusive light that seems to shine from the ceiling itself.

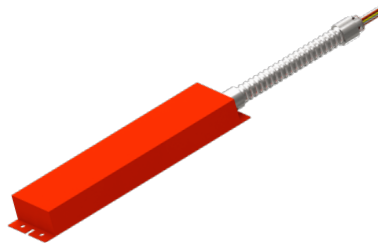

- 2, 3, and 4" Sizes
- Anit-Glare round, smooth cone
- Comes in Recessed or Gimbal
- 90 CRI
- Field-adjustable CCTs: 2700/3000/3500/4000/5000K
- 120V TRIAC dimming down to 10%
- UL Listed for wet locations
- No housing or can required

Easy access.

Even after spackle is added over the frame, accessing the wire connectors is as simple as a quick twist to separate the fixture from the frame.
