

RAB

VAN

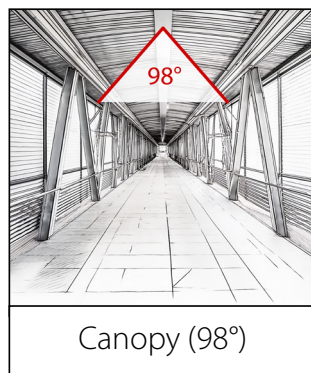

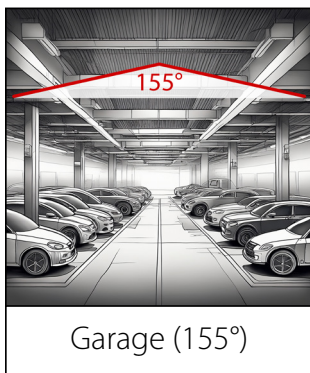

Built tough. Tuned to perfection.

The field-adjustable VAN canopy light.

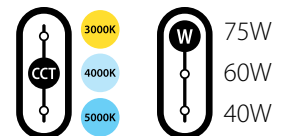

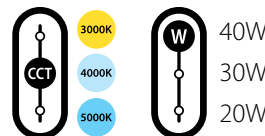

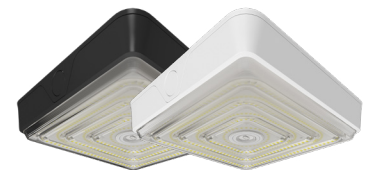

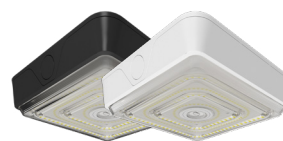

All the adjustability you need.

Available in 2 sizes and 2 finishes, the VAN puts control in your hands with field-adjustable wattage, CCT, and optics—all via external switches. Whether you need a tighter canopy distribution or a wider garage spread, you can tweak it on site without any guesswork.

IP RATING

VANDAL RESISTANT

IK08 RATING

Lighting that can take a hit.

The VAN was built for the real world, and the real world isn't always gentle. With an IP66 rating, reinforced construction, and a lens designed to take a licking, the VAN delivers premium performance wherever security and durability aren't optional.

10 YEAR

5-YEAR NO COMPROMISE + 5-YEAR LIMITED WARRANTY

A warranty that goes the distance.

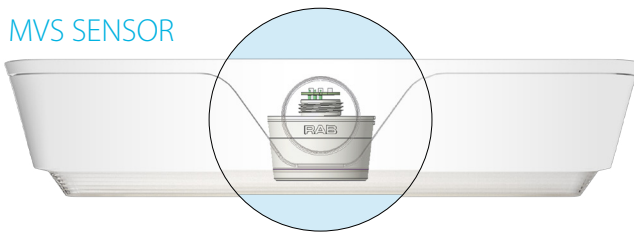

The VAN is backed by our 5-year, no-compromise warranty PLUS an additional 5-year limited warranty, for a total of 10 years of coverage! That's the kind of confidence that comes from a fixture built to last.

Sensor-ready from the start.

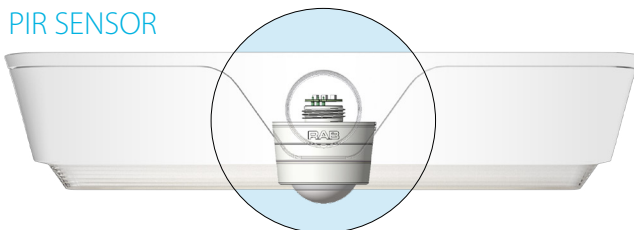

Every VAN comes standard with an integrated sensor port (compatible with our PIR20 and MVS20 sensors), making it easy to add occupancy/motion-based control without any extra hardware hassle. Looking for smart control? Our Lightcloud Blue models have you covered!

Once installed, the MVS sensors will be completely recessed within the fixture, while PIR models will protrude slightly.
