WFRETRO

Contemporary design, simple retrofitting.
Edge-lit wafer that screws right in.

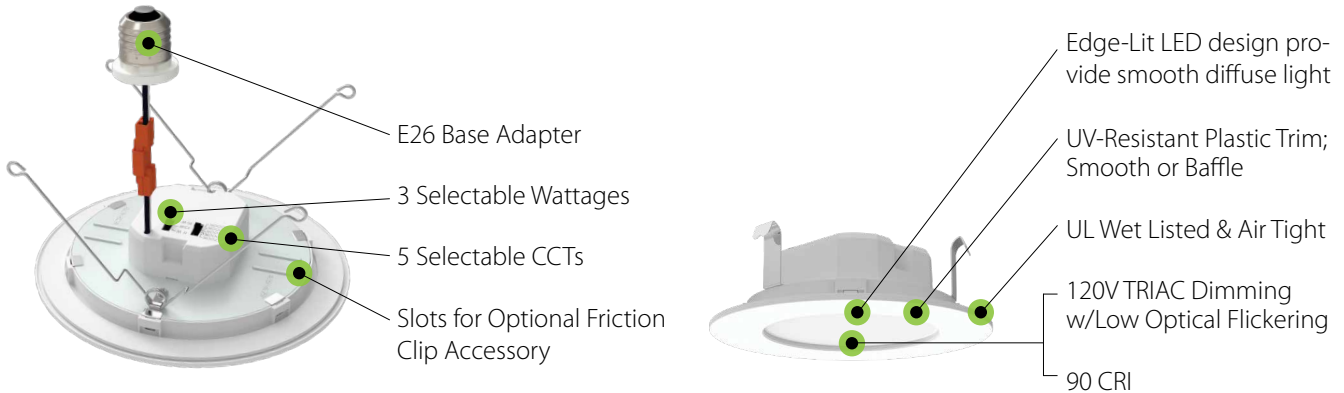

Update your space with a modern aesthetic.

Looking to upgrade existing downlights with the contemporary look of low-profile, edge-lit wafers? The WFRETRO quickly installs into most standard housings and can be used in both indoor and outdoor applications.

Easy installations.

The WFRETRO installs like any standard retrofit downlight. Simply remove the old bulb or trim, screw the Edison base adapter into the socket, and lock in place with torsion springs or friction clips. (Fits most 4" and 6" cans).

Which wafer do I want?
