

Thinner, lighter, and field adjustable.

The iconic ALED...reimagined.

Now with adjustable output.

The new ALEDs are available in four different sizes, each with three field-selectable wattages to let you replace up to 1500W MH.

A dramatic redesign.

Our ever-popular ALED family of area lights has been engineered to be significantly thinner, lighter, and more sustainable. It uses far less material and is lighter weight, clocking in at 60% the weight of its predecessor and one-third the size!

480V VOLT OPTIONAL
not available in small

100k-HOUR LED LIFESPAN

0-10V
DIMMABLE

NO-COMPROMISE
10-YEAR WARRANTY

*Dark Sky Approved
in 3000K (Small &
Medium housings
only)

Light where you need it.

In addition to being offered in distribution Types II, III, IV and V, the ALED is also available with optics maximized for car dealerships, with a wide distribution and an intentional hot spot that helps deliver eye-catching light to the front row of cars in a dealership lot while also minimizing "backspill" towards the street.

TWISTLOCK

WATTSTOPPER

Save more with sensors

The ALED is offered with optional motion sensors or a 7-pin receptacle that's perfect for use with RAB's standard twistlock photocell or our smart, Lightcloud Twist.*
