

RAB®

C-STRIP

Eco-friendly lighting at its finest.
Meet the sustainable C-STRIP.

A lean, green machine.

Like our C-WRAP and C-SWISH families, the C-STRIP's unique housing is composed of biorenewable material that includes seashells, coffee chaff, and recycled plastic.

Fewer SKUs to manage.

Both sizes of the C-STRIP are engineered for 120-277V use and boast field-adjustable color temperature and wattage that help keep your inventory at a minimum.

3500K

4000K

5000K

36W

27W

18W

88W

64W

42W

4 ft

8 ft

8 ft fixture, 4 ft box.

The larger model of the C-STRIP was designed with an innovative interior hinge that allows for the fixture to fold in half for transport, drastically reducing packaging materials and shipping/storage space. After unpacking, the C-STRIP unfolds and locks in place for a secure installation.

Versatile mounting.

The C-STRIP can be surface mounted or suspended on chains. Hardware is included for both options.

Additional options.

Both C-STRIP models are available with:

- Battery Backup
- Integrated MVS Sensor
- Lightcloud Blue Controller
- Lightcloud Blue PIR Sensor
