Control options galore.

All GUS17 models are available with Lightcloud Blue PIR or MVS sensors. Standard PIR and MVS sensor options are also available, and the driver is designed with a DC12V auxiliary port that can easily be wired to other sensors or controls.

Easy on the eyes.

GUS17 uses high-reflectance finish and white diffusion lens to soften light and reduce glare.

Joiner Bracket
GUS17 JOIN KIT

V-Hook Mounting Kit
GUS17 VHOOK

Lots of mounting options.

GUS17 can be surface mounted or mounted to a junction box. It can also be mounted in a variety of other ways. A V-hook mounting kit accessory is available for suspended mounting or, for continuous-run mounting, order the joiner bracket accessory.
