

RAB

An LED wrap that can do all that!

GUS® JR—field-selectable control at an economical price.

DLC LISTED

50,000 HOURS

0-10V DIMMING

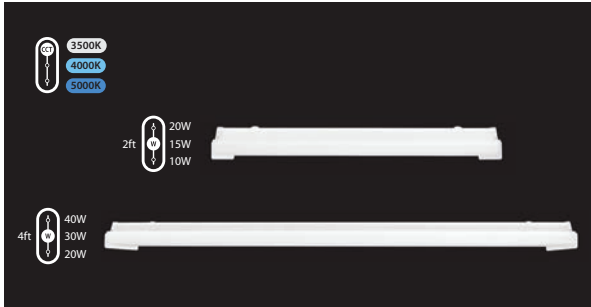

5-YEAR LIMITED WARRANTY

RAB's warranty is subject to all terms and conditions found at rablighting.com/warranty

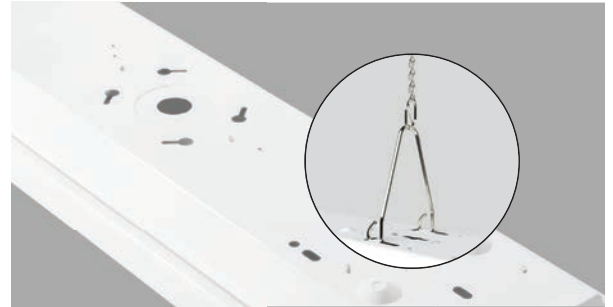

We've added field adjustability.

Available in 2' and 4' models, the economical GUS JR wrap now has three selectable wattages and color temperatures to maximize versatility in the field and lower SKU inventory.

Mounting made easy.

GUS JR can be surface mounted via side conduit entry or mounted to a recessed junction box. It can also be mounted with chains using our mounting kit.

Smooth light distribution.

A prismatic, wrap-around lens provides smooth light distribution that minimizes glare and eye strain.

Continuous runs are a breeze.

Hardware is included so that units can easily be daisy chained end-to-end for continuous runs.

Controls from basic to Bluetooth.

The GUS JR is available with numerous options, including a battery backup, MVS and PIR sensors, and factory-installed compatibility with our Lightcloud and Lightcloud Blue control systems.
