FIELD ADJ.

# Small but mighty.

The H15 economy series high bay.

## Our smallest UFO.

With the standard model clocking in at only a 9" diameter and the XL at just over 12", the H15 family is as compact as high bays get, but don't let its size fool you—it's powerful enough to replace up to 750W MH.

H15

H15XL

## Selectable in the field.

The H15 comes in two compact sizes, each with three selectable CCTs and wattages, making it versatile enough to handle countless applications with super-tight budgets.

| CCT | W |
|---|---|
| 3000K | 150W |
| 4000K | 120W |
| 5000K | 100W |

| CCT | W |
|---|---|
| 3000K | 240W |
| 4000K | 200W |
| 5000K | 150W |
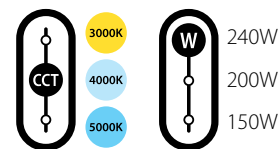

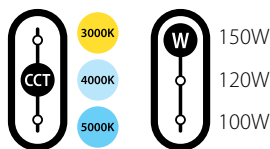

## Accessories.

Both models include an expansion port that makes it easy to add standard or Lightcloud Blue-enabled PIR and microwave sensors. A battery backup is also available.

## Lightcloud®

## Smart control at your fingertips.

The Lightcloud Blue app lets you take complete command of your landscape lighting. Beyond the general controls that bring your outdoor spaces to life, Lightcloud Blue also lets you easily create and adjust scenes and set schedules.

## Ordering Matrix

| Product Family | Wattage | | Color Temp | | Finish | | Driver | |
|---|---|---|---|---|---|---|---|---|
| **H15** | | | | | **B** | | | |
| | **Blank** | 150/120/100W | **Blank** | 3000/4000/5000K, CCT Adjustable | **B** | Black | **Blank** | 120-277V, 0-10V |
| | **XL** | 240/200/150W | | | | | **/480** | 480V, 0-10V |
