

RAB®

HERITAGE

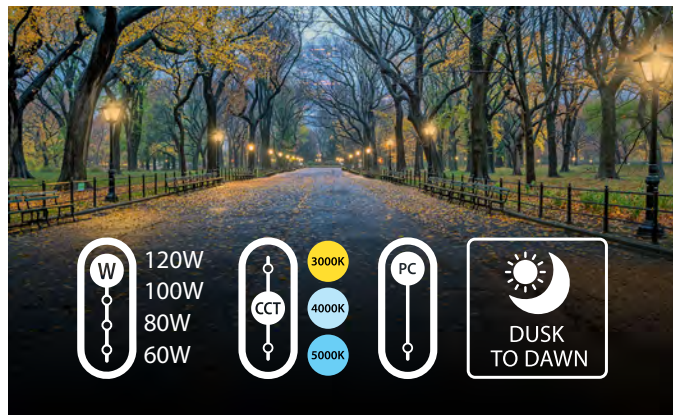

Classic design, modern performance.

The field-adjustable HERITAGE post top lantern.

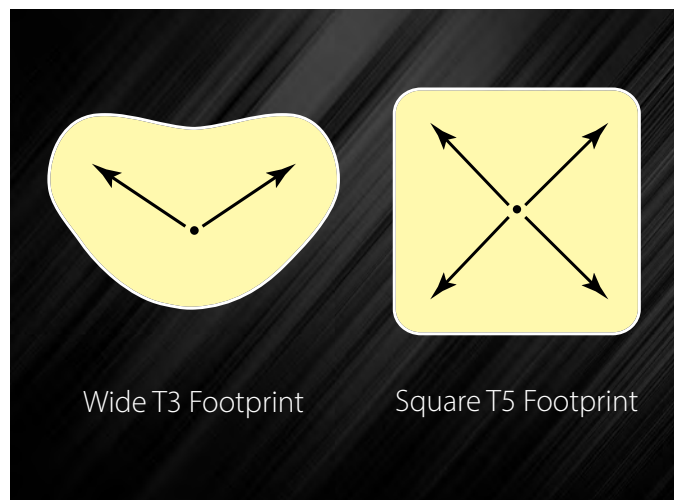

Lighting that puts you on easy street.

The HERITAGE lantern makes customization simple with field-adjustable wattage and CCT settings that let you customize the light output on site. An integrated on/off photocell provides automatic dusk-to-dawn operation for hands-free energy savings.

Field-adjustable optics.

Maximize visibility with selectable distribution that makes sure the light output goes exactly where it needs to. With the flick of the switch, you can choose between a wide T3 footprint or a square T5.

Design that fits anywhere.

Available in both round and square models, the HERITAGE lantern boasts 3 mounting options—pole, pendant, and wall—that give you the freedom to install it throughout the application for one seamless look.

Light it your own way.

When you need the look but not the LEDs, HERITAGE models can be ordered with an EX39 base instead, so you can screw in your own compatible lamp for a truly vintage look.

*LED lamp
sold separately

Smart control options available.

Take your lighting to the next level with optional, factory-installed control. Models are available with a 7-pin receptacle/shorting cap, a standard microwave motion sensor, or a Lightcloud Blue microwave sensor for advanced, wireless control from our app.

Lightcloud[®]

Turtle-friendly lighting.

For coastal areas that need to minimize the risk of disruption to wildlife, HERITAGE is available in amber light models that are certified by DLC LUNA.
