A woman with long brown hair, wearing a white t-shirt and a grey striped apron, is smiling while cooking in a kitchen. She is holding a small glass jar of yellow seasoning over a frying pan on a stovetop. The kitchen features light-colored wooden cabinets, a mosaic tile backsplash, and a wooden countertop. A green pot with chopsticks is also visible on the counter. The scene is illuminated by warm, soft under-cabinet lighting.

Soft, even light with adjustable
color temperature and output.

Under cabinet lighting that maximizes flexibility.

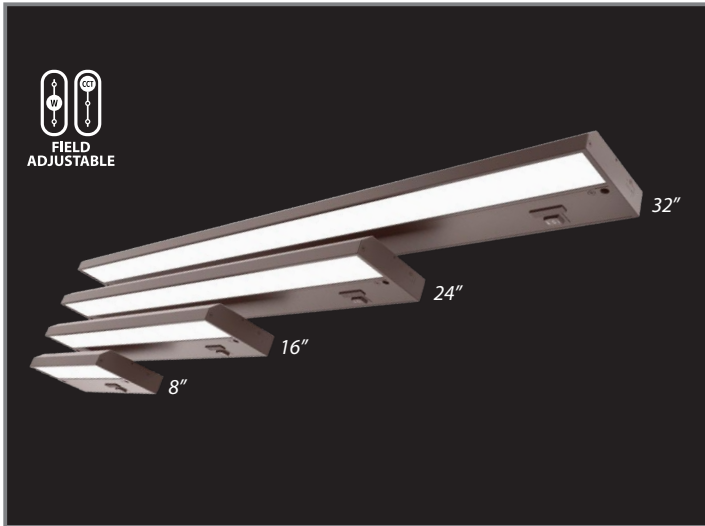

RAB[®]

KNOOK® LED Undercabinet

- Field-adjustable light output & color temperature
- Designed to provide soft, uniform lighting on work surfaces
- Simple to connect multiple fixtures
- Occupancy sensor accessory controls on/off, and includes a switch to manually turn off fixtures
- TRIAC and ELV dimming down to 5%*

RAB's warranty is subject to all terms and conditions found at rablighting.com/warranty

Available in four lengths: 8", 16", 24" or 32", and in brown or white.

KNOOK provides clean, uniform illumination across the length of the fixture, on walls and over countertops.

Each KNOOK fixture can be daisy chained with optional accessory jumper cables.

KNOOK leads in energy efficiency, beating out the competition with higher lumens per foot.

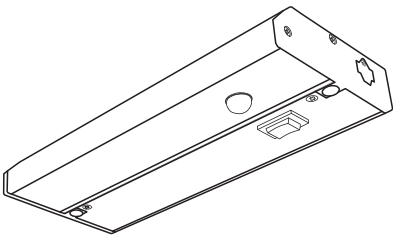

*List of compatible dimmers provided in the instructions.
