

RAB®

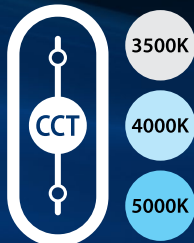

STRP

More flexibility and integrated control.
Meet the all-new STRP strip light.

Watch us flex.

The upgraded STRP now gives you flexibility in the field, with selectable wattages and color temperatures that means fewer SKUs to stock and the ability to fine-tune output after installation. Choose from single- or double-tube (high output) configurations in 2 or 4 ft lengths.

Variety is the spice of life.

STRP is designed to be versatile enough for use in various general-purpose lighting applications—from utility spaces to retail spaces, and everything in between.

Seamless connections, endless possibilities.

The STRP's modular design allows for continuous runs and seamless connections between fixtures. Whether you're lighting corridors, offices, or retail environments, the interconnected design maintains consistent light output while minimizing visible joints.

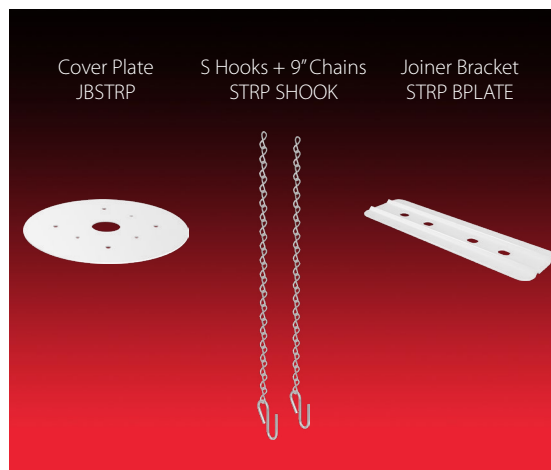

Smart sensing built right in.

Take control of energy savings with integrated occupancy sensing options including microwave (MVS), passive infrared (PIR), and Lightcloud Blue connectivity. With everything you need already built into the fixture, installs are a breeze!

Accessories.

Ready for emergencies.

Keep critical areas illuminated during power outages with an optional emergency battery backup that provides reliable backup lighting without the need for separate emergency fixtures.

Ordering Matrix

Product Family	Size/Wattage	Color Temp	Finish	Driver	Controls	Battery Backup
STRP						
2	2 ft (10/8/6W)	Blank	3500/4000/5000K CCT Adjustable	Blank	120-277V	Blank
2H	2 ft (20/15/10W)		Blank	White	0-10V Dimming	/MVS
4	4 ft (20/15/10W)					/PIR
4H	4 ft (40/30/20W)					/LCBS
