

Smart control for commercial spaces.

ZDIM—Bluetooth® mesh wireless network lighting control.

Your control, your choice.

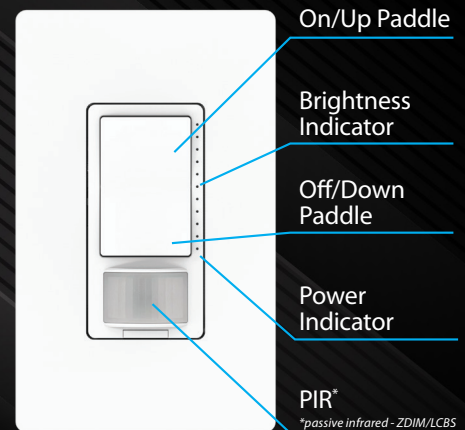

Using the Lightcloud Blue mobile app, customers can use the ZDIM as a dimmer or as a traditional paddle switch for basic ON/OFF commands. Control a single Area of lights or all the lights in a Site with a single button.

Wireless integration.

Control up to 600 Lightcloud Blue lights, providing flexibility and ease of integration into your 120-277V system, no load required.

- Single press to turn on/off
- Press and hold to fade lights on/off to desired brightness
- Double press to turn lights on/off at their highest or lowest brightness level

FEATURE PAGE

3-YEAR LIMITED WARRANTY

RAB's warranty is subject to all terms and conditions found at rablighting.com/warranty

Sensing options.

The ZDIM is available with an integrated, passive infrared (PIR) occupancy and daylight sensor, providing advanced automation for your lighting needs. The ZDIM sensor is fully configurable through the Lightcloud Blue app, enabling precise control and customization.

3-way in a new way.

The ZDIM can wirelessly communicate with any other Lightcloud Blue ZDIM, XDIM, or Remote. Easily mix and match the ZDIM with any other Lightcloud Blue dimmers or remotes for added flexibility and control.

Voice control and remote access.

Control your lights from anywhere with Alexa and Google Home. (Nano required, sold separately.)

Built for flexible control.

Mix and match hardwired, battery-powered, and kinetic devices to fit your space.
