- 0-10V dimmable driver, standard

- IC rated and Chicago Plenum (CCEA) compliant

- Lightcloud-enabled models offered

- 50,000-Hour LED lifespan

- Multiple-unit cartons reduce on-site waste

Tight spaces? No problem.

The T34's low-profile design is IC rated for direct contact with ceiling insulation, and is also Chicago Plenum (CCEA) compliant. Integral earthquake clips secure the panel to T-bars and won't get lost during installation.

Seeing is believing.

A frosted, polystyrene lens diffuses light, making the T34 ideal for areas that require uniform, glare-free distribution. The standard 0-10V dimmable driver allows for dialed-in control over your light output.

## Simple, powerful lighting control.

All models are available with factory-installed Lightcloud® integration, for use with our commercial, wireless lighting control system and service.
