HIGH EFFICACY

80+ CRI

FLICKER-FREE

Field adjustability with an ultra-economy price tag.

The WP123 FA wall packs are the latest addition to our growing line of field-adjustable, ultra-economy fixtures. All models come standard with selectable color temperature (3000/4000/5000K) and an integrated photocell that can be turned on or off as needed.

Low cost and high performance.

This family delivers amazing efficacy of up to 159 lm/W and 80+ CRI. Its output is smooth and quiet and comes without the flickering or humming often found in ultra-economy lighting.

A wide selection.

This family has a classic, prismatic glass design and comes in three sizes which cover the footprint of most traditional metal halide wall packs, allowing you to upgrade to LED while staying in budget. And with 6 lumen packages to choose from, it's easy to find exactly what you need to get the job done right.

Size	Model	Lumen Output
WP1FA	29	4,200lm
WP2FA	29	4,200lm
	40	5,700lm
	60	8,500lm
	80	12,500lm
WP3FA	50	7,500lm
	150	21,700lm

Ordering Matrix
